DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary J. Pitzer (Reg. No. 39,334) on July 28, 2009.

2. The application has been amended as follows: Claims 59, line 17, please insert after "...packet" **" , wherein if the retrieved data unit packet is a multicast packet, at least the payload portion if the multicast packet retrieved from the multicast buffer is copied from the multicast buffer for transmission depending on the number of modulators identified in the data unit header thereof.**

Allowable Subject Matter

3. Claims 1, 4, 7-17, 19-23, 26, 29, 32-39, 41-44, 56-74 are allowed.

4. With respect to independent claims 1, 23 and 59, the instant invention is directed to a method for providing a multicast of packet, which is included in a transport stream, in a digital network, a plurality of multimodulators in a digital network that receive at least one transport stream, each of the plurality of multimodulators transmit all or a portion of the at least one transport stream and a multimodulator in a broadband delivery system of digital network that receives at least one transport stream. The

relevant prior art of record, such as **Dyer et al (6,305,019)** discloses system for interactively distributing information services having a remote video session manager..

McKeown (6,515,991) combined unicast and multicast scheduling. **Feuer et al (7,366,417)** disclose delivering multicast services on a wavelength division multiplexed network using a configurable four-port wavelength selective crossbar switch. **Du et al (6,088,346)** disclose local area network with transceiver. However, **Dyer, McKeown, Feuer** nor **Du** and any of the cited references teach, or suggest, alone or in combination the feature of: "...determining whether to retrieve a packet from an associated muticast or unicast buffer, each packet retrieved from the multicast buffer being copied depending on how many of the plurality of modulators from which the multicast packet is to be transmitted based on the data unit header..." as recited in combination with other features of independent claim 1; "...each multicast packet being copied from the multicast buffer for transmission depending on the number of transmitting modulators identified in the data unit header thereof." as recited in combination with other features of independent claim 23; "...wherein if the retrieved data unit packet is a multicast packet, at least the payload portion if the multicast packet retrieved from the multicast buffer is copied from the multicast buffer for transmission depending on the number of modulators identified in the data unit header thereof." as recited in combination with other features of independent claim 59.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Smyth et al (6,598,229) disclose system and method for detecting and correcting a defective transmission channel in an interactive information distribution system

Son et al (7,203,201) disclose logical node identification in an information transmission network.

Limb et al (2001/0030975) disclose method for opening a proprietary MAC protocol in a non-DOCSIS modem compatibly with a DOCSIS modem.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **ANNAN Q. SHANG** whose telephone number is **(571)272-7355**. The examiner can normally be reached on **7:00am-4:00pm**.
